The Science of Health!

Every Man his own Physician.

HOLLOWAY'S PILLS

—AND—

Holloway's Ointment.

Disorders of the Stomach, Liver and Bowels.

The stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The bowels sympathize by costiveness, diarrhœa and Dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum

Are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antagonistic; its *modus operandi* is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions of the Skin,

Arising from a bad state of the blood, or chronic diseases, are eradicated and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints,

Whether in the young or old, married or single at the dawn of Womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation. They are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stuborn diseases is eradicated locally and entirely by the use of this emolient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases: Bunions, burns, chapped hands, chilblains, fistula, gout, lumbago, mercurial eruptions, piles, rheumatism, ringworm, salt-rheum, scalds, skin diseases, swelled glands, sore legs, sore breasts, sore heads, sore throats, sores of all kinds, sprains, stiff joints, tetter, ulcers, venereal sores and wounds of all kinds.

CAUTION.—See that the words "Holloway, New York and London," appear as a watermark on every leaf of the book of directions which enfolds each box or pot. No others are genuine. A handsome reward given for information leading to the detection of counterfeiters of the medicines and venders of the deceptive articles, knowing them to be such. Sold at the manufactory, No. 80 Maiden Lane, and by druggists and medicine dealers throughout the world. A great saving by taking the large sizes. Full instructions with every box or pot.

America, England and France, now unite in this grand Proclamation:

Good news! good news the cable brings,
O'er all the wires it flies,
Wheeler & Wilson's sewing machine
Brings back the golden prize.

Our "Uncle Sam" first struck the note,
"John Bull" then caught the sound;
Now comes from France the echo back,
Wheeler & Wilson's crowned.

And now, no more the people doubt,
So long its stood the test—
The thing is fairly noised about
And they will buy the best.

☞ We can now supply those who wish to purchase 'STODDARD'S PATENT TUCK-MARKER,' one of the most useful attachments to the Machine yet invented; which, while sewing one tuck, makes the line of marks for the next.

"NOT ANY FOR ME."

When I see my friends drinking,
I cannot help thinking
How foolish it is to get on a spree;
And if asked to partake,
For sociability's sake,
My answer is, "No, not any for me."
That's me.

Very foolish and risky,
This drinking of whisky,
In these times, at least, you all will agree;
The habit's a bad one,
In truth, 'tis a mad one,
And, for one, I can say, "Not any for me."
That's so.

It is poisonous stuff,
And you know well enough
'Twill kill you in time; then why not agree
To stop this hard drinking,
Ere you find yourself sinking,
And say when you're asked, "Not any for me."
Why not?

When my friends propose play,
I get quickly away,
For gaming, with me, in whatever degree,
Is distasteful at best;
And I never am pressed,
For they know I will say, "Not any for me."
They do.

'Tis a terrible passion,
And, although 'tis the fashion,
Yet from its allurements 'tis best to steer free;
Whether at faro or stocks
'Tis a share that mocks—
And, for one, I can say, "Not any for me."
You bet.

It takes hold of all classes,
And not even the lasses
Themselves from the vice are totally free;
They will bet odds in gloves
With their brothers or "loves;"
But the vice I detest—"Not any for me."
Not any.

When I see our young ladies
With whom showy parade is
Paramount to anything else I can see,
Doing nothing but playing
The piano—crocheting—
I think to myself, "Not any for me."
Not any.

With the girls of to-day
It's no work and all play,
And they'd scream if you'd ask them how to make tea;
They are far too good looking
To meddle with cooking;
And as that is the case, "Not any for me."
Not any.

No, I'd rather live single,
And with bachelors mingle,
Than wed one of these: yes, I'd rather be free:
Yet my friends they say "Harry,
Pray, why don't you marry?"
But I only remark, "Not any for me."
That's me.

DON'T DEPEND ON FATHER. — Stand up here, young man, and let us talk to you. You have trusted alone to the contents of your father's purse, or his fair fame for your influence or success in business. Think you that "father" has attained to eminence in his profession but by unwearied industry? or that he has amassed a fortune honestly without energy and activity? You should know that the faculty requisite for the acquiring of fame or fortune is essential to, nay, inseparable from the retaining of either of these. Suppose "father" has the "rocks" in abundance, if you never earned anything for him, you have no more business with those rocks than a gosling has with a tortoise! and if he allows you to meddle with them until you have gained them by your own industry, he perpetrates untold mischief. And if the old gentleman is lavish of his cash towards you, while he is allowing you to while away your time, you'd better leave him, yes run away, sooner than be an imbecile, or something worse, through so corrupt an influence! Sooner or later you must learn to rely on your own resources, or you will not be anybody. Come, off with your coat, clinch the the saw, the plow-handle, the scythe, the axe, the pickaxe, the spade—anything that will enable you to stir your blood! Fly around and tear your shirt, rather than be the passive recipient of the old gentleman's bounty. Sooner than play the gentleman at dad's expense, hire yourself out to some potato patch, get yourself entitled to a resting spell, do it on your own hook. If you have no other means of having fun of your own, buy with your earnings an empty barrel, and put your head into it and holloa, or get into it and roll down hill; don't for pity's sake, make the old gentleman furnish everything, and you live at your ease. Again, we say, wake up—get up in the morning; turn around at least twice before breakfast—help the old man—give him now and then a generous lift in business—learn how to take the lead, and not depend forever on being led, and you have no idea how the discipline will benefit you. Do this, and our word for it, you will seem to breathe a new atmosphere, possess a new frame, tread new earth, make a new destiny, and then you may begin to aspire to manhood Take off, then that ring from your finger, break your cane, wipe your nose, hold up your head, and, by all means, do not depend on father.

LITTLE folks are always catching up odd words and phrases, and bringing them into their own conversation in a way which is dot inapt, but may be somewhat surprising to their elders. A little girl about to receive her morning ablution begged for warm water. Her mother made the temperature of the bath agreeable, as she thought, and while sponging the child's face, said, "Now, isn't that nice?" "Pretty nice," was the doubtful reply. "I think it very nice," said the mother. "But," returned the little girl, "I think it is only pretty nice; and that's the difference between 'tweedle-dum and tweedle-dee!'" Not quite so happy in his application of a newly heard can't phrase was the little boy who was asked by his grandfather at breakfast, "Henry, will you have sirup or sugar on your hasty pudding?" and pleasantly answered, "None of your business, grandpa!" The unconscious offender, who had not the slightest intention of being disrespectful, received a severe admonition.

A GENTLEMAN was praising the beautiful hair of a lady, when one of those terrible children whom providence seems to have sent on earth as scourges of hypocrisy and falsehood, exclaimed: "My hair would be as handsome as mamma's, if she'd let me take as much care of it as she does of hers. Mamma never sleeps in her hair, but always puts its away in the wardrobe before she goes to bed."

Billingsgate.

KAKES.—There are many kinds of kake—some of one kind, and some not.

The hoe-kake is particularly adapted to that kind of society who have nothing to bake, and nothing but a hoe to bake it on. It is a native of "Westward, ho!"

Ice kake is good enough to weigh down lemon peels in dog days; also to hold butter that would otherwise travel on the plate; also toothache.

Grese kake, otherwise called doughnut alias, "culls," is made by holding hunks of doe, by the finger, in bilin' hot grese.

They are a very common but unhealthy beverage.

Pound kake is my favorite. I always aim to get one that runs eighteen to twenty oz. to the pound—there is more good eating in it for the money.

Sponge kake is like pound kake, only it is a little different, and don't run so many oz. to the pound, though an unpraktikal eye would think it the cheaper kake.

Oil kake is the squeezins of an oil mill. They are good for cows' milk and fast horses. It is never knoed in a well regulated dairy, as it makes the hair too slick, and rain having no effect on the milk.

"Bride's kake." I don't know much about this kake as I never was a bride. But I suppose they make it very sweet.

BUMBLE BEES.—The bumble bee is one ov nature's sekrets. They probably have a destiny to fill, and are probably necessary, if a fellow only knew how. They live apart from the rest of mankind in a little circle, numbering about seventy-five or eighty souls. They are borned about haying time, and are different from an bug I know uv; they are the biggest when just born. They resemble some men in this respect. Their principal biziness is making poor honey, but they don't make eny tew sell. Boys often rob them uv a whole summer's work; but there is one thing about the bumble bee that boys always watch dreadful close, and that is their helm. I had rather not have the bumble bee honey there iz between here and the city uv Jerussalem, than to have a bumble bee hit me with his helm when he comes round suddin. They are different from other war vessels; the helm always minds the bumble bee.

When a rooster crows he crows all over.

Error will slip thrue a crack while truth will get stuck in a doorway.

The man who haz just found out he kant afford tew burn green wood haz taken hiz fust lesson in ekonomy.

There iz only one thing that kan beat truth, and that iz he who always speaks it.

It iz a hard work, at fust sight, to see the wisdom of a rattlesnaik bite, but there iz thousands of folks who never think ov their sins until they are bit by a rattlesnaik.

There is great deal ov humin natur in a krab: if yu don't pick them up in the right way you will diskover it.

I think now, if I had all the money that iz due me, I would invest it a sawmill, and then "let her rip."

Take the humbug out ov this world, and you won't have much left to do bizziness with.

Faith and curriosity are the gin cocktails ov sukcess.

Advertising is sed tew be a certain means ov sukcess; some folks are so impressed with this truth that it sticks out ov their tomb-stun.

Thare iz this differen e between ignorance and error; ignorance is stone blind, and error is short-sighted; ignorance stands still and moves to run agin a post.

UTTERLY IMPOSSIBLE.—That the old lady who believes in "signs and symptoms," always looks out for the new moon over her left shoulder, and never makes pickles on a Friday will not know something to happen within the year, particularly if she has the bad luck to break the looking-glass! As the old Dutch farmer said, "Things are always happening all the years!"

That the man who says, "plenty of time, there's no hurry," should not miss the boats, lose the trains, and get generally behind hand! Just notice whether people that have "plenty of time" don't usually end with having no time at all.

That the woman who puts off her baking until the washing is done, and the washing until the weather is a little warmer, and sits down to read a dog's-eared novel in the meantime, should have anything but a drinking husband, shiftless children, and a desolate home.

That man who carries his hands in his trowsers pockets should ever possess anything else to carry in his pockets.

That the young lady who sleeps in kid gloves and powders her face for the benefit of her complexion," should have more than her share of common sense!

That a man who wears an imitation diamond ring, will ever own a real one! For mock jewelry indicates a lack of brains and it takes a certain amount of brains to make money enough for real diamonds or anything else that is genuine.

TWENTY-SEVEN CENTS WORTH OF MARRIED LIFE.—In Virginia, where the law fixes the marriage fee at $1, there is a reminiscence of a couple who many years ago called on a parson and requested him to marry them.

"Where is my fee?" said the functionary.

The parties who were to unite their fortunes did so at once, and found the joint amount to be twenty-seven cents.

"I can't marry you for this sum," said the irate old gentleman.

"A little bit of service will go a long way," suggested the male applicant.

"Ah, no," said the parson; "you don't pay for the size of the bill, but for the good you hope it will do you."

The lass, intent on marriage, began to weep, but the parson was inexorable, and the couple turned sadly to depart. Just then a happy thought seemed to strike the forlorn maiden, and she turned and cried through her tears: "Please, sir, if you can't marry us full up, won't you marry us twenty-seven cents worth; we can come for the rest some other time."

This was too much for the parson. He married them "full up," and they went on their way rejoicing.

Success in life is apt to make us forget the time when we wasn't much. It is just so with a frog; he can't remember when he was a tadpole, but other folks can.

THAT HASTY PUDDING.—Some students in one of our colleges being frequently annoyed by the nocturnal and inquisitorial visits of a Professor, who suspected them of playing cards, one evening prepared a kettle of mush, otherwise called hasty pudding, and by the time it was boiled, had seated themselves around the table in the attitude of card-playing, waiting patiently for the well-known step of the Professor. It was no sooner heard than a large outside pocket of one of them was filled with hasty pudding, and all were seated as before. As soon as the Professor had opened the door, the student who was loaded with the mush made a sudden sweep over the table with his hands, as if to gather up the cards, and with another motion apparently put them into the pocket containing the mush. The movements could not help being noticed, as they were intended to be, by the Professor, who, considering them as pretty strong evidence of guilt, broke out with the following:

"Well, young gentleman, I've caught you at last, have I?"

"Why, yes, sir, we are all here."

"So I see you are, and you have been playing cards, too."

"No, sir, it is not so."

"It is'nt, ha! What have you got in your pocket, young man?"

"Hot hasty pudding, sir."

"Hot hasty pudding, ha! hasty pudding, have you? I'll hasty pudding you," said the Professor, at the same time thrusting his hand half-way to the elbow into the hot hasty pudding.

The dolorous looks, the shaking of fingers, the groaning and capers of the Professor, belong to the sphere of imagination, not description.

CHILDREN'S ETIQUETTE.—Always say, Yes, sir. No, sir. Yes, papa. No, papa. Thank you. No, thank you. Good night. Good morning. Use no slang terms.

Clean faces, clean clothes, clean shoes and clean finger nails indicate good breeding. Never leave your clothes about the room. Have a place for everything, and everything in its place.

Rap before entering a room, and never leave it with your back to the company.

Always offer your seat to a lady or old gentleman.

Never put your feet on cushions, chairs or tables.

Never overlook any one when reading or writing, nor talk or read aloud while others are reading.

Never talk or whisper at meetings or public places, and especially in a private room, where any one is singing or playing the piano.

Be careful to injure no one's feelings by unkind remarks. Never tell tales, make faces, call names, ridicule the lame, mimic the unfortunates, nor be cruel to insects, birds or animals.

NIAGARA CRUMBLING IN.—A letter from Niagara Falls states:

The change in the Falls this Spring is the greatest that has been witnessed probably by any one generation. In the Horseshoe Fall, where the green water is seen, the rock has crumbled away to the depth of about thirty-five feet on the side nearest Goat Island. The circular appearance of the Horseshoe is now changed, and is more in the shape of a angle than anything else. The American Falls has also met with some altercation which old habitues notice this season; more prrticulrrly is it seen on the side toward Luna Island, and were a pointed projection of rock to give way the appearance would be changed to that of a horseshoe. It is estimated by competent geologists that some 150 tons of rock must have given away from the Horseshoe alone. The beauty of the Falls is not in the least marred, but rather enhanced, and old habitues seem to like the Falls this year much better than ever.

WOMAN'S RIGHTS. — Women in Austria perform the duties of bricklayers' laborers, and may be seen carrying hods of mortar and baskets of bricks up high ladders. More than this, they actually supply the place of navvies, and dig and wheel barrows of "ballast" almost as nimbly as their lords. They chop wood, they carry water, they offer to black your boots in the streets, and perform many other little offices which, according to our notions, hardly come under the denomination of women's work. Perhaps this state of things is unavoidable in a country where it is considered necessary to keep a standing army of 800,000 men. The women work inordinately hard, while hundreds of idle men are constantly sauntering about in various uniforms, doing nothing at all except perhaps blowing a cloud of tobacco smoke.

A PEACH ORCHARD FORTY-FIVE MILES LONG.—George F. Akers, of Nashville, on a visit to Virginia, writes to a friend in Nashville, that "the breastworks in front of Petersburg thrown up by the Confederates during the late war, extending to the left towards Richmond about twenty miles, and to the right about twenty-five miles, for the defense of the city, have grown up in a continuous line of peach trees of every variety, yielding an abundant crop the present year. This is the only legacy left by the Confederates who were on the advance line within one hundred yards of the enemy. Having eaten the fruit while on picket duty, they cast the seed aside, and now they appear in one continuous line of forty-five miles in beautiful trees, yielding the greatest variety of the finest fruit.

SCIENTIFIC FACTS.—The violence of the expansion of water when freezing is sufficient to cleave a globe of copper, of such thickness as to require a force of 28,000 pounds to produce a like effect.

The explosive force of closely confined gunpowder, is six and a half tons to the square inch.

Water, when converted into steam, increases in bulk 18,000 times.

During the conversion of ice into water 140 degrees of heat are absorbed.

The greatest artificial cold ever produced is 91 degrees Fahrenheit.

AN eccentric beggar thus laconically addressed a lady: "Will you, madam, give me a drink of water, for I am so hungry I don't know where to stay to-night?" We doubt whether more significance could be given in so few words.

YOLO COUNTY DEMOCRAT.

SATURDAY, : : SEPTEMBER 25, 1869.

Democratic Nominations.

For Justices of the Supreme Court:

WILLIAM T. WALLACE,
OF SAN FRANCISCO.

JOSEPH B. CROCKETT,
OF ALAMEDA.

For Judge of the Sixth Judicial District:

LEWIS RAMAGE,
OF SACRAMENTO.

Cache Creek Township.

For Justices of the Peace:
ELIAS PETERSON.....of Woodland.
A. J. HALL.....of Cacheville.

DAILY MAIL.—We get the following from the *Bulletin* of Sept. 23d:

We learn from Postmaster Coey that the Postmaster General has ordered that a contract be made with the California Pacific Railroad Company for carrying the mail on the route from San Francisco to Sacramento and back, twice daily, leaving all intermediate points between Sacramento and Vallejo once a day, with a branch service from Davisville, by Woodland, to Knight's Landing and back daily. The new service will commence October 1st, 1869, and continue till June 30th, 1870.

NEW YORK NOMINATIONS. — The Democrats of New York have nominated for Secretary of State, Homer A. Nelson; Controller, W. F. Allen; Attorney General, M. Champlin; Treasurer, Wheeler A. Bristol; State Prison Inspector, F. Lafin; Judges of Court of Appeals, John A. Lott and Robert Earl. By resolution the Convention denounce the Fifteenth Amendment as debasing and demoralizing to the representative system.

COIN.—The Oakland *Transcript* says: "One hundred and thirty-two millions of gold in the treasury, so the telegraph tells us; and that while we are paying enormous interest on borrowed money. What would be thought of the business man who would mortgage his homestead that he might lock up the proceeds in his safe."

ENDED.—The Paraguayan war is again said to be ended. We suppose Lopez is taking another rest. It is curious but true that always after the war has "ended" the Paraguayans very soon give the Allies a sound thrashing. We expect daily to hear of a great defeat of the forces of Brazil and Buenos Ayres.

CENTRAL PACIFIC SUPERINTENDENT.—Chas. Crocker having been elected Second Vice-President of the Central Pacific Railroad, has resigned his position of Superintendent and has been succeeded by A. N. Towne, late of the Chicago, Burlington and Quincy Railroad.

PRINCE ARTHUR had a grand reception at London, Canada, Sept. 23d. Over 30,000 people were in attendance. An American Flag, which had been hung with the decorations, was pulled down and torn in pieces. There was great excitement.

THE other day a lady in Carroll county, Georgia, gave birth to twins. On the same day, and in the same house, two of her daughters brought forth twins—all boys. They must have had a *boysterous* time in that mansion.

UNSUCCESSFUL.—The scientific party which went to the coast of Siberia, in the U. S. Steamer Mohican, to make obscurations upon the eclipse of the sun were unfortunate, the weather being cloudy during the time of observation.

OLD.—The Stockton *Independent* tells of a "venerable Mexican," 103 years old, who has been hale and vigorous until the last ten days. His name is Jose Maria Villagrana, and he cannot last but a few days.

POSTAL TELEGRAPH.—Gardner G. Hubbard has been talking to the San Francisco Chamber of Commerce, of the advantages of a Postal Telegraph. His views were endorsed by a resolution of the Board.

EAST TENNESSEE has a bigger crop than for many years.—*Exchange.*

Of what? Darkies?—*Appeal.*

Unfortunately for you Radicals, no. Of Democrats.

ACTIVE.—The business of obtaining Chinese girls for the San Francisco market, is said to be lively in Shanghae. The supply equals the demand, and very fair girls can be had for $4 apiece.

IT is said that arrangements have been made with Gen. Butler, whereby he will not be a candidate in the coming Senatorial contest in Massachusetts. This will leave a clear field for the present Senator, Wilson.

THE pacing horse, Longfellow, made the fastest pacing time on this coast, on Monday. He went over the Bay View Park, at San Francisco, in 2:25.

The smallpox has not yet disappeared from Virginia City. A new case was reported on Thursday.

I. O. G. T.—The Grand Lodge of Good Templars meets in Sacramento, at the Assembly Chamber, Tuesday.

JOHN G. SAXE, the poet and wit, or rather the witty poet, has arrived and will lecture in San Francisco.

OVERLAND.—Hon. James A. Johnson, M. C. from this District, left on Wednesday for Washington *via* Railroad.

GAINS.—The Democracy gained 12,000 in Vermont and 20,000 in Maine at the late elections.

DOOMED.

The Radical papers are exhausting their ingenuity to invent some plausable excuse, (being unwilling to admit the true reason), for the disastrous defeat of their party at the late election. They say that Democrats all voted and many of their party did not. We believe most Democrats did perform their duty and we are confident that all Radicals visited the polls on the 1st of September, but thousands of Republicans did not vote. They could not indorse the insane policy of the Radicals, and were not quite prepared to vote with those they had so long opposed, although it could not be denied that their old time opponents had progressed as far as patriotism dictated or prudence justified; so many of them stayed at home on election day, and their absence accounts for the falling off of the vote of the State since last year. The Democratic vote is full as compared with 1868; not that every Democrat voted but that a large number of Republicans had the courage to vote for principle, regardless of party ties or prejudice, and gave their support to the candidates of the Democracy for legislative offices. The Republicans of '56 who then dared to declare that slavery should be restricted because of its injury to the white laborer, inasmuch that it degraded labor and the laborer, should not hesitate now to declare against the importation of a class equally degraded with the negro slave and whose presence and encouragement would be injurious as regards the interests of the working man and dangerous to the life of the Republic and the liberties of the people. Many did not hesitate and so the Democratic vote in the State is nearly equal to that of last year. Shortly summed up, the Radicals were defeated because of their grievous public offenses—their sins of omission and commission innumerable and of all the grades of infamy. The people turn in disgust from their principles, spurn their insane policy and spit upon and loathe their acknowledged leaders. Their abhorence has been manifested at the late elections in this State, where Radicalism was routed; in Maine, where the Radical vote has fallen off tens of thousands; in Vermont, where the Democracy make great gains; in Tennessee, where Democracy triumphed by half a hundred thousand; in every State and town and city where the people have spoken since the inauguration of the present administration. In many places in the East Republicans and Democrats unite and make common cause in defence of American honor and in opposition to Radical misrule. The elections in Ohio and Pennsylvania will show that the people are fully aroused and their action on the 12th day of next month, will convince the most doubting that Radicalism has exhausted public patience and its end is at hand. The people are in opposition to it and that is why it was beaten in this State, and the people will continue to oppose it until its day of doom, which is not far in the future.

THE USES OF BUTLER.—He is a wonderful compound of shrewdness and rascality, this same Butler. A man of as strongly marked mental as physical characteristics; a man of wonderful energy and power and without any scruples to hamper him in any work which he sets about. They tell curious stories about him in Washington—of the corps of short-hand reporters which he maintained while in the army to take down the unguarded words of prominent men; of the armies of spies which he still supports; of the bushels of damaging letters and the barrels of damning telegrams which he has managed to obtain and keeps stored away for future use. And yet there is an element of the heroic about him, and there are some phases of his character which one cannot help admiring. In his place in Congress he is a most valuable man. Unscrupulous himself, he is keen on the scent of corruption, and fear of Butler no doubt often serves as a check where higher motives would be powerless. Some time ago he aspired to the Secretaryship of the Treasury, and we are not certain but that he would have made a much better Secretary than either McCullough or Boutwell. Ex-Secretary Butler would doubtless have been a great deal richer, too. At any rate it is certain that if any man could ferret out and break up the rings of treasury thieves, that man is the lop-eyed member from Massachusetts, who is so hated, despised and feared.

STATE FAIR.—The newspapers of the State never will get tired of cursing the late State Fair. The Placer *Herald* says:

Taking the reports of those present from every portion of the coast, we are bound to believe there was no State Fair held in California for 1869. All agree, however, that there was a State horse-race, and a jockey concern at that, held in Sacramento during the second week of this month, and that through it and the swarms of gamblers, circuses, side-shows, hash-house swindlers, hack drivers, and the lesser cappers for the above-named, the innocent and deceived visitors were effectuelly swindled. The Legislature should prohibit, by law, this society from using and disgracing the name of California in future.

COMPLIMENTARY DINNER. — The citizens of Sacramento give a grand complimentary dinner to the Directors and officers of the Central Pacific Railroad on Tuesday next. The invitation is signed by nearly all the prominent men in the city.

JOHN RUSSELL YOUNG.—This distinguished Journalist, late managing editor of the N. Y. *Tribune*, it is said will soon assume editorial control of the *Herald*.

RIGHT.—The *Times* characterizes the present system of doing business in San Francisco "as only fit for the carrying on of a peanut trade."

THERE are forty gambling houses in Chicago, which take in $8,000 per night, and are earning $3,000,000 per annum.

PIONEERS.—The Pioneers had a great time in Chicago, and left for the East on Thursday.

SPECIAL AGENTS.—The *Spirit of the Times*, speaking of those mischief-makers and miserable spies called Special Agents of the Government, concludes as follows:

From our standpoint, we cannot conceive of a more dis raceful branch of the Government service than that of which we speak, and we presume the Government finds it a hard matter to secure men who will enter upon its discharge. As a matter of course there are those whose ideas of honor and respectability are such that there is no work too menial and contemptible for them to do, and therefore we are not at all surprised that the race of special agents or spies of the revenue service is not yet extinct. We hope the time is not far distant, however, when the entire system will be abolished, or so modified and improved, and its disgusting features lopped off that men of education and refinement, of known honesty and integrity, may be induced to accept a position without losing his own self-respect.

Where there is so much rottenness at headquarters it is not surprising that inferior officers should be suspicioned and that special agents should be employed to ferret out dishonest parties.

WE acknowledge the receipt of an invitation ticket to the Agricultural Fair of Sonoma County, which commences Monday, Sept. 27th, and continues till Friday, Oct. 1st, at Petaluma. We shall endeavor to be present. Nothing tends more to develop agriculture in all its branches than these annual Fairs, where the varied products of the farm are exhibited and compared, inducing rivalry and consequent improved production. Why does not Yolo have its Agricultural Society and Fairs for the exhibition of its products?

CHINESE SLAVES IN ALAMEDA.—The *Workingmen's Journal* says: "We understand that the proprietor of a shoe factory in Lynn Township, Alameda county, has discharged a large number of white hands, to whom he had been paying four dollars a day, and has employed Chinamen in their places at one dollar a day. If this be so, the white workingmen in that section ought to go and remove him and his traps across the bay. Men of that class are no better than public enemies and ought to be cleaned out.

NEWSPAPER INCOMES.—The receipts of some of the New York papers are enormous. For the nine months ending June 30th the gr as receipts of the Herald, for subscriptions alone, were $593 071; of the World, $442,633; Tribune, $425,158; Times, $344,831; Sun, $128,562; Post, $78,646; News, $200,150; Democrat, $53,762; Ledger, $476,037; Sunday Mercury, $110,582; Harper's Weekly and Bazaar, $432,176; New York Weekly and Funny Fellow, $417,823. These are the sums returned at the Assessor's office.

THE RADICAL PRESS, chafing over the result of the late election, talk about the Fifteenth Amendment being "crammed down the throats of the Democrats of California." Well, they never will take it any other way, and the Radicals were not very successful in "cramming" it down at the late election. It will not be an easy job to force the people to swallow the nauseous thing. The peoples' taste is different from Radical taste. Wait and see.

ODD FELLOW MEMBERSHIP. — The report laid before the Grand Lodge of Odd Fellows, now in session in San Francisco, shows that, according to the reports of the subordinate Lodges which have been received, there have been initiated during the year 41,000 members, making the total number in the United States, so far as known, 269,000 —an increase over last year of about 25,000.

MCFARLAND, Radical candidate for District Judge of the 14th District, in a speech last Fall, said:

"It were better that our daughters were given over to prostitution, our sons to the gamblers, our wives to the embrace of the negro, and ourselves to the devil, than that the destinies of this land be committed to the care and keeping of the Democratic party."

BLIND.—A correspondent of the Placer *Herald*, writing of the new State Capitol at Sacramento, says that a "gentleman who has done Europe," says that he *saw* nothing superior to it on that Continent. We would like to know what business a blind man has in "doing Europe," for we take for granted that the gentleman referred to must have been blind.

EX-GOVERNOR PICO, of California (while under Mexican rule) was swindled out of his money and watch at Promontory, the other day. He found a friend who talked Spanish, and backed him against a game of "three-card monte." The result was not unusual. He lost his friend soon after losing his money.

A BRUTE.—A man named Edward Proctor has been arrested in Sacramento for beating his wife. He whipped her with a "blacksnake," until great welts were left upon her body. Judge Foote will attend to his case. It is a pity that Judge Lynch has not the case in charge.

TELL IT.—Boruck intimates that he knows some damaging facts concerning the Internal Revenue Collections on this Coast; and he also intimates that he will tell them. If he does know anything he ought to expose it, and we think he does, as he is not a man to advertise more than he shows. Out with it.

THE *Inland Empire* says "road agents" have become a feature of the road between Hamilton and Elko, and so lauds their politeness and industry, as the editors want to be "in with them" when they travel.

YOLO BRIDGE.—The *Bee* says: It is said that the California Pacific Railroad Company will begin the construction of the railroad bridge across the Sacramento river in about two weeks.

CHILLS.—This is a fine season for chills in Placer county.

CHINESE SUFFRAGE.—George B. Loring, temporary chairman of the Massachusetts Radical State Convention, in a speech before that body advocated Chinese Suffrage. As all the principles and opinions of the Radical party are manufactured in Massachusetts, that speech indicates what we may expect to be openly proclaimed by them should the Fifteenth Amendment be ratified. Should the amendment be adopted, a question may arise regarding its binding force upon the States rejecting it, and therefore it is all-important that the Supreme Bench of this State should be occupied by men who will not be blinded by prejudice or controlled by partisan influence. The Democracy should see to it that such men be elected. The odious amendment is not entirely out of the contest, as Radical newspapers declare. It may be that the coming judicial election is equally important as that of the first instant. At all events it is best to make sure, and we advise Democrats not to trust to any chance in the matter, but to come out, every man, and *secure* the election of their candidates. The Radicals evidently intend to make a hard fight. Their very political existence depends upon their success, and they will not die without a struggle. Then let Democrats be up and at work, and let the victory be signal and its effects permanent.

AFTER A FIGHT.—Tommy Chandler is going to New York to get a fight out of Jem Mace, the English bruiser, now enjoying the hospitalities of John Morrissey and Commodore Vanderbilt. Chandler proposes to put up $10,000 that he can do the job for Mace. We hope they will fight, and don't care which wins the money, but trust that both will get nicely whipped. Prize fighting was disgusting and brutal enough at its best, but of late it has fallen very low in the estimation of all decent people. It is very seldom, since the fight between Heenan and Morrissey, that the "best man has won."

THE *Call*, speaking of the completion of the Railroad says:

"We have cut through or tunnelled under all the mountains in the way for nearly four thousand miles, brought extremes together, introduced the East and the West to each other, cheated Time out of three-fourths of the tribute he exacted from travelers ten years age, and done more to prevent sectional antagonisms and to obliberate sectional ignorance, than all the laws which have been passed since Captain John Smith kissed Pocahontas, and Miles Standish swung his sword through the neck of the Massachusetts savage."

AFTER THEM.—Ben. Butler is said to be after the Retrenchment Committee, and Schenck, its Chairman, in particular, and is coming to this coast to find out what they might have done and did not accomplish. Butler doesn't like Schenck a bit, and he will make it warm for him and his Committee next winter. Whatever else may be said about Butler, he is not a good man to have for an enemy. There will be fun when Congress meets.

SILK.—The silk manufactures of France are valued at $141,000,000 annually, and half a million of persons are engaged in the business. Of this amount she exports $110,000,000 yearly. Rev. I. N. Diehl, in a speech delivered before the Silk Culturists Association at Sacramento, lately, said that California could raise from forty to sixty million dollars worth of silk annually.

THE CONGRESSIONAL RETRENCHMENT COMMITTEE are pursuing their investigations at Calistoga, Yosemite and other popular places of resort. Their investigations will no doubt be productive of valuable results, as will also those of the Committee on Ways and Means. They have had a good time, and the Government can well enough afford to pay their expenses, as there is no debt and plenty of coin in the Treasury.

LAYING THE CORNER STONE.—The cornerstone of the new University of California building, at Berkley, will be laid about the middle of next month. The ceremonies will be conducted by the Grand Lodge of Masons of California. They will proceed to the grounds escorted by the Knights Templar. An oration will be delivered by John B. Felton, Esq., and a poem by Frank Bret Harte.

ALEX. MONTGOMERY, editor of the "*California Express*," Martinez, and formerly of Marysville, will be a candidate for Secretary of the State Senate, and Robt. Ferral, of the Sonoma *Democrat*, for Clerk of the Assembly. They are both competent and deserving, and in the grand rush we should not be surprised nor sorry should they come out ahead.

WE understand that the Retrenchment Committee will report favorably upon the character of grub and quality of wine furnished by the obliging proprietors of the Cosmopolitan and the Occidental. Also the cuisine of W. C. Ralston will receive favorable mention, and Pullman's silver palace cars will not be overlooked.

SARCASTIC.—The *Spirit of the Times* is occasionally rather sarcastic on Senator Cole. Here is the last shot:

Corneil Cole has returned from St. Domingo. For the sake of the natives thereof we are glad. We understand some little of their possessions were left them by the percenting Senator.

FULL OF YEARS. — Senora Maria Isabel Pico, died at Castroville last week, aged ninety-eight. She was the mother of six sons and seven daughthers and leaves over one hundred descendants and over one thousand blood relations.

IN DANGER.—The *Union* states that James Flannigan, who was shot in the leg by Vincent Alexander, at the Mammoth Saloon, during the Fair, is in a dangerous condition.

THE PRICE OF WHEAT.—The last *Mark Lane Express* shows that in England the crop is less than had been hoped for and confidently expected by many; that other continental countries are in like cases; that the reports from France had for some time been unsatisfactory, and the latest news from Danzig and Odessa was no better; and that the trouble was in all cases the same—blighted ears, diminished yield. The crop, it estimates, will be about the same as that of 1867. It adds that the wants of Great Britain will be heavy, and predicts advance. It calls attention to the previous figures, showing that the market price for the crop of 1868 had been forced unnaturally low, when it said that buying wheat was like buying gold dust. City millers were still vigorously resisting the upward tendency. Since the date of this paper, the market has further advanced, and the Liverpool price for California wheat comes through at 11s 2d per cental. Wheat costing here $1 60 per cental, with freight at £3 10s per ton, costs in dock at Liverpool, say 10s 6d. Our present prices, therefore, allow a bare margin for profit, and shippers are evidently speculating for a rise.—*S. F. Times, 15th inst.*

BAD BUSINESS.—The Yolo papers devote about nine-tenths of their space to abuse of each other. The editors are disgustingly personal in their squibs, and we suppose the public are generally disgusted with them. It would be more manly for them to fight it out at once, and then give their readers a little news and other readable matter. A continual personal warfare, wherein every other word conveys insult, is not very creditable to either party engaged in it.—*Bee.*

Now if the editor of the *Bee* will point out one "disgustingly personal squib" in the DEMOCRAT during the past six weeks we plead guilty. It would be much "more manly" for him to read a paper before lecturing its editor. We recommend the DEMOCRAT for his perusal. Had he read it in the past he would not have been so ignorantly stupid as to have penned the above, which is known by all who read the DEMOCRAT to be untrue as far as it is concerned.

A POLICY.—It really seems that the Government has a policy regarding Cuba. The independence of the Island is demanded, slavery is to be abolished and the United States are to secure Spain for the value of the Government property. That is good; bully, decrepid old Spain; rob her of her possessions, it is safe; but be careful how John Bull is approached; coax him gently to settle the Alabama claims, and say nothing about hanging and imprisoning American citizens suspected of Fenianism. It isn't best to irritate him; it might be dangerous and then they are only Irishmen, of no account, not half as good as a Chinaman. That is our Radical foreign policy and we do not anticipate any change.

COLD BLOODED MURDER. — About one o'clock Wednesday morning, a Mexican went to the house of John Cable, who resides at Indian Diggins, and called him to the door, and deliberately shot him. He survived until about 7 o'clock the same morning, when he died. The murderer made his escape and is still at large. No cause whatever can be given for the committal of the dreadful act.—*Amador Ledger, 18th inst.*

WET NURSE.—The *Bee* advertises for a "wet nurse." It has occurred to us several times since the departure of McClatchey that the editor *ad interim* needed something of the kind.

THE JUDICIAL ELECTION takes place on Wednesday, Oct. 20th.

Summons.

STATE OF CALIFORNIA, county of Yolo. In the District Court of the 6th Judicial District. The People of the State of California, to LEWIS HULS, Greeting: You are hereby summoned to answer the complaint of DRURY ELY, in said Court filed against you, within ten days from the service of this writ, exclusive of the day of service, if served on you in this county; if served out of this county, but within this Judicial District, within twenty days; but if served on you without said District, then in forty days from such service, exclusive of the day of service, in an action commenced on the 4th day of August, 1869, in said Court.

Said action is brought to obtain judgment for the sum of Five Hundred and Twenty-one Dollars, and costs of suit; said sum being due plaintiff from defendant for a lot of sacks sold and delivered defendant by plaintiff, as alleged in plaintiff's complaint. And you are hereby notified, that if you fail to answer the complaint as directed, plaintiff will take judgment for the sum demanded.

In testimony whereof, I, E. Bynum, Clerk of the 6th Judicial District Court aforesaid, do hereunto set my hand and affix the seal of said Court, at office in Woodland, this 4th day of August, A. D. 1869.

YOLO COUNTY DEMOCRAT.

County Official Paper.

TOWN AND COUNTY MATTERS.

A FAMILY DIFFICULTY.—The Brown family is numerous and generally peaceable. It has furnished more Governors, Senators, Ministers of the Gospel and good citizens, than any other family save one, and the name seldom is recorded in the annals of criminal courts, wherein its rival, the Smiths, have the advantage. We are not sure but that if the whole country was peopled with Browns it would be better for it. They pay their taxes regularly and generally are intelligent enough to vote the Democratic ticket at elections. They don't repudiate anything, and pay for their newspaper in advance; and yet, strangely enough, there has been a difficulty in the family, a fight in fact. The *casus belli*, one Brown made a remark reflecting upon the pedigree of the other and got hit. The affair then got mixed up with several gang plows in front of Fleishman & Kauffman's, and about there the matter ended.

SEED TIME.—The impression is general, we believe, that farmers in our valleys only sow their grain after the commencement of the rainy season. This is a mistake. Our farmers have been for several weeks sowing wheat on fallow land and also some of them upon ground recently turned up by the plow. The soil turned up at this season is dry, and even dusty, but grain sown upon it has the advantage of the first rains, and will produce a crop, it is believed, in the dryest season. Experience has shown that early sown grain is more certain to muture, and also as a rule produces the largest yield, and our farmers are profiting by their experience.

COMMERCIAL GAME.—Two men in a saloon one day this week were engaged in a friendly "commercial game," (which we believe to be a modern rendition of "old sledge") for the drinks. One was very successful in "sticking" the other six times. The seventh game resulted differently and the loser refused to respond. This was the ground-work of a little fight and of this item. The party refusing settled in the rear of a black eye and nose devoid of any bark; in fact, he responded cheerfully several times, and when we left the *entente cordiale* was perfect between the party of the first part and the party of the second part, but the game was not resumed.

GOING AWAY.—Mike Adler, for a long time salesman for Fleishman & Kaufman, starts for New York by railroad on Tuesday next. Mike has been an accommodating and faithful attache of the house with which he has so long been connected, as can be proven by the public and his employers. We do not know whether he will return or not, but little Mike will be missed very much, and should he return he will receive a warm welcome. We wish him good luck wherever he may be, and hope he may come back to stay permanently.

GOING EAST.—Mr. B. M. Fleishman, of our leading mercantile house of Fleishman & Kaufman, starts for the Eastern States next week. He will visit Chicago, New York, Boston, Philadelphia and all the great commercial centres, and arrange for the direct shipment of goods for their store in this place and for the San Francisco trade. Fleishman & Kaufman always take the lead, and if there are advantages in direct shipments or by purchasing at any particular place, they are going to know it. Mr. Fleishman will be absent about six weeks.

RACE.—A man was seen one day this week coming out of a saloon, closely followed by a bar-room chair. The chair was the fastest and overtook the man. Result, a broken chair and a bruised Caucassian. What it was all about we do not know and did not inquire. If a man makes a match race with a bar-room chair, driven by an irate Dutchman, and gets beaten, it is none of our business; but if we were going to bet on a race of that kind we would back the chair every time.

CAPITAL HOTEL.—This fine hotel (late Planters' House) is now under the management and control of Messrs. Furniss & Eaton, both well and favorably known to the people of the county and the traveling public. It will be kept as a first-class hotel. D. M. Burns is in the office, and his gentlemanly, unobtrusive attention to guests will be appreciated by those sojourning at the Capital. Location, corner of Main and First streets, Woodland.

HOLTZMAN'S PAINTING.—Holtzman's Harvest Scene is one of the great objects of interest at the Fair of the Mechanics' Institute now being held in San Francisco. The peculiar artistic construction of the frame—being covered with different kinds of seeds, acorns, etc., tastefully arranged—attracts general attention and receives much praise. The painting altogether is pronounced a very creditable production.

TAXES FOR 1869.—The Sheriff (and ex-officio Tax Collector) gives notice that in twenty days he will visit the several townships to receive taxes now due and payable. Taxes will be receipted for at the Collector's office, in Woodland, at any time previous to the dates in the official notice. Taxes not paid as per notice will be subject to cost and additional per centage for collection.

P. F. DUNN.—A man may wear a shabby hat and be excused as careless or excentric, but an ill-fitting boot spoils the outward adornment of a gentleman. P. F. Dunn, late of San Francisco, has located in this place and brings with him the reputation of a first-class workman. He guarantees an elegant and easy fit. His card will be found in this issue of the DEMOCRAT.

DUSTY.—Thursday was one of those days that we would willingly skip. The north wind made our bones ache and filled everybody's eyes and mouth with dust. We got a mouthful of Tehama free-soil, and presume that at Davisville and down that way any one can tell Woodland earth by the taste.

EXCURSION.—The Good Templars Orphans' Home will be dedicated at Vallejo, Friday, October 1st. An excursion train of cars will be run on that day; fare from Woodland, for the round trip, $2. Visitors will be permitted to inspect the U. S. Navy Yard at Mare Island.

THE WRONG MAN.—Some individual last week handed us a notice of the marriage of W. L. Marders. We learn since that it was *H. L.* that was married. We trust that no one begrudges W. L. his one short week of married felicity. But we have made the correction. W. L. Marders is *not* now married.

ASSESSED VALUATION.—The Assessor's books show the following assessed value of property in Yolo County: Real Estate, $1,797,495; Personal Property, $1,600,383; Improvements, $565,461; Crops (estimated), $224,180. Making a total assessed valuation of $4,187,519. Amount of tax, at 2.27 per cent., $95,056 68.

POSTPONEMENT.—As will be seen by notice in another column, the drawing of Lee's Grand Gift Enterprise is postponed to Oct. 18th. The drawing will positively take place on that day. In the meantime the real estate and other gifts are open for inspection, and the $250 in gold coin can be seen also.

A LARGE BIRD.—An immense pelican was shot on Sunday last at Kirk's Ranch, in Yolo County, about ten miles from Washington. It measured four feet six inches from the tip of the bill to the end of the tail, and eight feet from tip to tip of the wings.

☞ Farmers, if you want the best Grain Cleaner ever invented, send for descriptive circulars to Hunter & Wristen, 218 Davis street, San Francisco.

☞ If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULOFSON, 429 Montgomery street, San Francisco.

RUNAWAY.—A horse belonging to Dr. Hunter, getting away from a boy having him in charge, came rushing up Main street yesterday. Turning to the left he made for Ruggles & Macheferts' Drug Store, and entering it made a hurried investigation. Not finding what he required he went out and at renewed speed crossed the street diagonally, and breaking the chain in front of Fleishman & Kaufmans', rushed into another Drug Store, that of Read & Magee. He stopped in front of Ben. Hastings' prescription counter, and when we arrived there Ben was on hand prescribing for the maniac Bucephalus. He became quiet immediately and was led away. None other than a Doctor's horse would have shown such a preference for drug stores. The only damage done in the raid was the breaking of the chain in front of Fleishman & Kaufmans'.

ARRESTED.—Sheriff Minis and Deputy Boyle yesterday arrested a man calling himself Sam Robinson. There was found upon him an assortment of tools sufficient to furnish a dentist's office, a lock-smith, a gun-smith and a small carpenter shop. Sam is in jail awaiting future developments.

DOG TAX.—$636 dog tax has been collected in the county during the present year. Quite a little item from the canines.

RICHARD P. FORD will hear something to his advantage by calling at Frost's Real Estate Office. *

STILL THEY COME.—The Solano *Press* says that James E. Ryan, of Vallejo, will be a candidate for Sergeant-at-arms of the Assembly, and that Jim Hawkins has an anxious eye for the same position.

ARRIVED.—The "Red Stockings" Base Ball Club, from Cincinnati, have arrived in San Francisco, and will play a match game with the "picked nine" of California.

THE Hon. Horace Greeley's knowledge of agricultural affairs is improving. The turnips which he raised last year only cost him one dollar and twelve cents each.

PROVIDENCE, R. I., claims to have two old ladies living in the same house in that city, sisters, each over one hundred and ten years of age. They were both born in Ireland.

A MALICIOUS correspondent speaks of a young lady at one of the watering places who has been "nineteen" for seven seasons.

USE PAIN KILLER FOR CHOLERA AND BOWEL COMPLAINTS., for Boils, Cuts, Bruises and Scalds, Old Sores, Sprains Swelling of the Joints, Toothache, Pain in the Face, Neuralgia and Rheumatism, Frosted Feet, Felons, Sore Throat, Sudden Colds, Coughs, &c. Use it for any of these, and you will never do without. Its success as a valuable family medicine has induced others to imitate and counterfeit the Pain Killer to some extent. *Beware of Counterfeits.* s4m1

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, until the evil consequences of such a condition are realized in extreme debility, nervousness and prostration of the vital energies of the system; and it may be safely asserted that a majority of the female sex are little better than invalids, from the same cause; but by using Dr. Walker's Vinegar Bitters, this natural aperient and tonic brings back the vigor and bouyancy of health.

An exchange says: "The surprising curative efficacy of Dr. Walker's Vinegar Bitters, in a great variety of chronic diseases, especially those which prove obstinate, and incurable by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal properties, wisely adapted to the cure of diseases common to all mankind."

The effect of Dr. Walker's Vinegar Bitters, even when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose.

There is no nausea or disturbance of the stomach, and instead of causing any sense of languor, or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

AYER'S HAIR VIGOR,

For Restoring Gray Hair to its Natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always cured by its use. Nothing can restore the hair where follicles are destroyed, or the glands atrophied and destroyed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

Hair Dressing,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by DR. J. AYER & CO., Practical and Analytical Chemists, Lowell, Massachusetts. Price, $1.

THE LATEST DISCOVERY

— IN —

MEDICATION!

The great difficulty which physicians have been laboring for centuries to overcome, has at length been obviated. A Vegetable Cathartic and alterative more efficient than any mineral preparation of the same class, and as agreeable to the taste as ordinary candy, is now offered to the sick in the form of a Lozenge.

Dr. Erasmus Winslow's Liver and Stomach Lozenge is the most important medicinal novelty that modern chemistry has produced. It contains two botanical extracts, perfectly harmless in themselves, but embodying all the remedial properties of mercury, and destined in this pleasant form to supercede and banish from general use the nauseous pills and potions of which that dangerous excitant is the main ingredient. More than one thousand experiments were made by the inventor of this peerless remedy before it was brought to its present state of perfection. The Lozenge is harmless in its operation, and although the medicinal taste of its curative components has been extinguished by chemical art, their virtues remain as active and potent as ever.

In Dyspepsia, Biliousness, Constipation, sick or nervous Headache, Piles, Dropsy, and the irregularities to which the feebler sex are subject, the Lozenges will be found infinitely moee effective than any of the horrible and disgustiug compounds usually administered in such cases. As an anti-billious specific and general aperient, they have no equal either among advertised preparations or the preseriptions of the regular pharmacopœia.

☞ It is guaranteed that no one who has once tried Dr. Erasmus Winslow's Liver and Stomach Lozenge, will ever again take a purgative powder, or draught, or pill.

Payable in seventeen Monthly Installment.

Title Perfect!

Payments to begin July, 1869, and to close November, 1870.

This Homestead addition to the City of Sacramento offers unrivaled iuducements to all who desire to secure homes, as well as to those seeking to make investments in real estate. Shareholders who pay up in full may take possession of their lots under restrictions consistent with the interests of all Shareholders and an equitable distribution of the property. These restrictions are briefly: 1. Payment in full within six months from July 1st, 1869. 2. Not more than six lots in any one block shall be assigned; only two of which shall be corner lots, and only one corner and two inside lots on the same side of a block. This feature will secure the immediate settlement and rapid improvement of the lands, and a consequent enhancement of its value. The line of the Sacramento Valley and Western Pacific Railroads run through the plat, and an agreement and bond has been executed by the former Company to run trains on schedules of time equal to the accommodations afforded by street railroads. Thus by reason of being conveniently accessible, these lands are brought within the range (in value) of those more centrally located, and will find early occupancy. In every feature of this scheme the Homestead principle—which has been so prolific of good to citizens of moderate means, promoting the growth of our State and its cities and distributing the ownership of Realty among the many—has been carefully guarded. It may safely challenge comparison or competition.

Articles of Association, containing maps of plat, and showing its relation to the city, will be furnished upon application. Shares may be secured by forwarding the first installment of Ten Dollars to the Secretary, who will also furnish any desired information.

CALIFORNIA VINEGAR BITTERS!

Manufactured from the native Herbs and Roots of California.

The Great Blood Purifier!

For Inflammatory and chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such diseases are caused by Vitiated Blood, which is generally produced by derangement of the digestive organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptiyns, or sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy, and all will be well.

"The life of all Flesh is the Blood thereof." Purify the Blood and the health of the whole system will follow. It is a Gentle Purgative as well as a Tonic.

These Bitters are not a gilded Pill, to delight the eye or please the fancy, but a medical preparation, composed of the best vegetable ingredients known.

YOLO COUNTY DEMOCRAT.

MILKING.

Little dun cow to the apple-tree tied,
Chewing the cud of reflection,
I, that am milking you, sit by your side,
Lost in sad retrospection.

Far o'er the fields the tall daisies blush warm,
For rosy the sunset is dying;
Across the still valley, o'er meadow and farm,
The flush of its beauty is lying.

White foams the milk in the pail at my feet,
Clearly the robbins are calling;
Soft blows the evening wind after the heat,
Cool the long shadows are falling.

Little dun cow, 'tis so tranquil and sweet!
Are you ligh-hearted, I wonder!
What do you think about something to eat?
On clover and grass do you ponder?

I am remembering days that are dead,
And a brown little maid in the gleaming,
Milking her cow, with the west burning red
Over waves that about her were foaming.

Up from the sad east the deep shadows gloomed
Out of the distance and found her;
Lightly she sang, while the solemn sea boomed
Like a great organ, around her.

Under the light-house no sweet-brier grew.
Dry was the grass, and no daisies
Waved in the wind, and the flowers were few
That lifted their delicate faces.

But O, she was happy, and careless, and blest,
Full of the song-sparrow's spirit;
Grateful for life, for the least and the best
Of the blessings that mortals inherit.

Fairer than gardens of Pardise seemed
The desolate spaces of water;
Nature was hers—clouds that frowned, stars that gleamed—
What beautiful lessons they taught her!

Would I could find you again, little maid,
Striving with utmost endeavor—
Could find in my breast that light heart, unafraid,
That has vanished forever and ever!

Railroads are like laundresses, they have ironed the whole country, and occasionally do a little mangling.

You flatter yourself that you hold the reins of your own establishment. So you do. But if you are a married man, I'll bet two to one that you hold them at the horse-end.

A man in New Orleans is so upright in all his dealings that he won't sit down at his meals.

The drinking, smoking, and chewing of the working men of New York cost them $6,720,000 per annum.

An Irishman, hearing of a friend who had a stone coffin made for himself, exclaimed: "That's a good idea. Sure an' a stone coffin ud' last a man a lifetime."

An urchin on being rebuked for wearing out his stockings at the toes, replied that it couldn't be helped—"toes wiggled and heels didn't."

When dunces call us fools without proving us to be so, our best retort is to prove them to be fools without condescending to call them so.

Grafting potatoes is the latest agricultural item. It is done by changing eyes. It puts a different face on them and causes them to look up sooner.

A writer, trying to be severe upon Boston, is only funny when he says the city is called the "hub" because a *fellow* gets *tired* going about it.

A home missionary was asked the cause of his poverty. "Principally," said he, with a twinkle of his eye, "because I have preaached so much without notes."

The great secret of happiness lies in noble toil—work that fills the heart, opens the mind and strengthens the body; and almost any occupation affords this.

A Person speaking of a drink he once had occasion to indulge in, says he could not tell whether it was brandy or a torch-light procession that was going down his throat.

Don't be too anxious to solve a conundrum. We know a man who got two black eyes in endeavoring to find out the difference between a man and a woman fighting in the street.

There is nothing that we hate more than hypocritical weepers. We have stood and looked at such when we half expected every tear as it touched the earth, to crawl off, a pert young crocodile.

"It is a standing rule in my church," said one clergyman to another, "for the sexton to wake up any man he sees asleep." "I think," replied the other, "that it would be better for the sexton to wake you up whenever a man goes to sleep under your preaching."

For unadulterated economy, commend us to the German. Give him a salary of forty cents a day, and in ten years he will own a brick block, a fat horse, nine children, and a vrow broader than she is long, and as good natured as a blind kitten.

"Bridget, what have you done with the cream? Those children cannot eat skim milk for breakfast." "Sure marm, and it isn't meself that would be afther giving the scum to yees. I tuk that off and gave it to cats."

"The man is in liquor," said one constable to another, as he landed an inebriate Celt at the Tombs. "Be gorra," exclaimed the latter, "yez are the drunkest iv the two; a devil a drap am I in liquor—the liquor's in me."

A specimen of Young America on his first drunk, was seen the other evening leaning against a lamp post. He was heard to soliloquize thusly: "As a drunkest I ain't much; but as a pukeist (hic) I am a successist."

"Have you seen B. lately?" inquired a gentleman of a medical friend. "What! don't you know?" was the reply. "We were dining together a day or two ago; the next day he fell ill; I attended him; he died in the evening. Poor fellow! I dissected him this morning."

Another new invention from France. What can be more convenient than a handsome little table churn, by means of which persons may make their butter at the table while breakfast is going on? It takes but three minutes' time, and the machine is gorgeous with cut glass and silver.

Oil is not well adapted to swimming purposes. A workman, employed in an oil manufactory at Nice, fell into a tank of olive-oil nine feet deep. He was an expert swimmer, but the oil did not afford resistence enough to keep him afloat, and he sank to the bottom at once and was only saved from drowning by the timely aid of a comrade.

AYER'S CATHARTIC PILLS

For all the Purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterous drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure:—For Dyspepsia or Indigestion, Listlessness, Langour and Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action. For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it. For Dysentery or Diarrhœa, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear. For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge. For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach. An occasional dose, stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus. DR. J. C. AYER & CO.,

G. J. OVERSHINER,

CARRIAGE AND WAGON MANUFACTURER,

Main street, (opposite Gray & Freeman's,)

WOODLAND.

I would call the attention of the public to this well-known shop, where I manufacture to order and keep constantly on hand for sale

Carriages, Buggies, Sulkies, CONCORD-STYLE THOROUGHBRACE

—AND—

LUMBER WAGONS,

—FROM THE—

BEST EASTERN MATERIAL,

Selected by myself!

All work manufactured at my shop is under my own immediate supervision, and up to the requirements of the times, of the latest style, and the most

APPROVED PATTERNS AND FINISH!

I employ no "foreman," for 30 years' experience in the trade—10 years in the Eastern States, 20 years on the Pacific coast, (including 9 years superintendence of the "Pioneer Carriage Shop," Sacramento,) justifies me in assuming that position. Delegating to none the supervision of my work, I am enabled to

Guarantee Satisfaction!

My LARGE and SPACIOUS SHOPS enable me to store large quantities of material, and my

SEASONING FACILITIES,

(the only perfect seasoning apparatus on the coast) enable me to defy competition in quality of seasoned work. For verification of above, one has only to examine my facilities in this line, and compare them with those in other shops. I do not pursue the course adopted by many; on the contrary, I season stock before working, and do not put up green stock in wheels, leaving them to season afterwards. I have and keep on hand a large stock of

OAK and HICKORY SPOKES,

of all sizes and the finest material the market affords. Also a large variety of

Elm and Locust Hubs.

Having given the Oak Hub a fair trial, I have become convinced that they are *unfit* for first-class work. Parties who may favor me with their patronage may be assured that

No green oak hubs will be found in my work!

In this connection I would call particular attention to my NEW STYLE LOCUST HUB, turned from my pattern, and imported expressly for this trade and

Found only at my Shop!

Also made to order all kinds of

FARMING IMPLEMENTS!

Plows, Harrows, &c

I have now on hand Harrows of all sizes, with STEEL TEETH, superior to the imported article. In short, I am prepared to fill all orders, from a **Wheelbarrow to a Hornet's Nest.**

The PAINTING and TRIMMING DEPARTMENT

is equal to the best, and particular attention is paid to repairing and trimming old work.

BLACKSMITHING,

In all its branches, is connected with the wood-work, and both are under my supervision.

I have on hand, for sale,

Plow-beams and Handles, Neckyokes, Singletrees, Stretchers, Clevises, Fifth-chains, Lap-Rings, Harrow-Teeth, Etc., Etc.

All kinds of Plow and Wagon repairing done with neatness and dispatch. Determined to adhere to my long-established rule of manufacturing only the

Best Work from the Best Stock,

and having served my time at the two branches of carriage-work, (wood and iron) enables me to guarantee satisfaction in all cases, and to know, as foreman of my own shop, when work is

WELL DONE.

To those who have heretofore dealt at other shops, and consequently are unacquainted with my work, I would say GIVE ME A CALL and examine my stock and work. Believing that the surest test of the value of my work can be had in the verdict of those who use it, I respectfully refer the public to

The following named Gentlemen

who have and now are using Wagons and Buggies of my manufacture: E. Giddings, J. Laugenour, J. Aldrich, Mr. High, H. Rhoades, Mr. Taylor, J. Jones, L. B. Ruggles, Gray & Freeman, J. Garountte, Fleishman & Kaufman, Ed. Moses, S. & M. Hyman, George Scott, Mr. Lindsden, Mr. Olds, Mr. Lusk, Mr. Hurlbut, R. Fritz, J. Lane, Wm. Davidson, and a host of others whose names can be given if required

☞ Thankful for past patronage, I respectfully solicit a continuance of the favor.
